

ENDOMED 2025

Palermo | March 19-21, 2025

Course director

Roberto Di Mitri

Course co-director

Alessandro Repici

PROGRAMME

Continuing to Navigate the Future of Gastroenterology

Continued technical innovation and the development of high-performance devices and instruments have fueled the progressive growth of Digestive Endoscopy.

Innovative procedures now play a central and crucial role in the management of digestive diseases across medical settings. Novel technologies and innovations, such as artificial intelligence systems or software dedicated to real-time image reprocessing, contribute to expanding Digestive Endoscopy opportunities.

The increase in diagnostic accuracy and the efficacy of various minimally invasive treatments may drastically improve both patients' quality of life and their life perspectives.

The ENDOMED 2025 Project aims to promote clinical and technological innovation in digestive endoscopy in the Mediterranean area, a territory rich in history, with multiple countries having cross-cultural differences and similarities.

By fostering a common cultural and technical background among Clinical Gastroenterology Organizations operating in the Mediterranean area, ENDOMED 2025 contributes to regional growth and collaboration between neighboring countries.

As highlighted in ENDOMED 2024, this challenge of unity is extremely important for the years to come.

Across the Mediterranean sea, the 2025 ENDOMED event connects medical centers renowned worldwide. These strategically positioned, distinguished hubs, collectively drive global advancements in Digestive Endoscopy.

Marked on our map on the next page, they serve as bases of excellence, emphasizing the collaborative spirit that defines the ENDOMED project.

Each Center serves as a core of pioneering expertise, driving innovation and promoting best practices in Gastroenterology and Digestive Endoscopy.

» **CONNECTED ENDOSCOPY SUITES**

The goal of ENDOMED 2025, through the use of face-to-face interactions and live endoscopy sessions, is to present participants with the latest developments in the field of digestive, diagnostic, and therapeutic endoscopy, helping them in their daily clinical practice.

The full list of connected centers will soon be disclosed.

» March 19th

02:00-03:00

Welcome Address

OPENING LECTURES

03:00-03:30

Training and Endoscopic Curriculum for Acquisition of Cognitive and Motor Skills: Perspectives of Digestive Endoscopy Societies and Optimization of Novel Learning Modalities
Prateek Sharma (ASGE President)

03:30-04:00

“Lights and Shadows” of Artificial Intelligence
Cesare Hassan (ESGE President)

FOCUS ON ESOPHAGUS – from 04:00 to 05:00

04:00-04:20

Barrett’s Esophagus: Recent Advancements on Endoscopic Ablation Therapy and Surveillance

04:20-04:40

Personalized Medicine in Eosinophilic Esophagitis

04:40-05:00

Non-achalasia Esophageal Motility Disorders: From Pathophysiology to Endoscopic Treatment

05:00-05:30

BREAK

FOCUS ON THIRD SPACE ENDOSCOPY – from 05:30 to 06:30

05:30-05:50

Endoscopic Submucosal Dissection: Is It Definitely The Era of Traction? Pros and Cons

05:50-06:10

POEM and Endoscopic Anti-Reflux Treatments... State of Art

06:10-06:30

Training on 3rd Space Endoscopy in the Mediterranean Area

END OF THE DAY

» March 20th

08:30-10:00

LIVE ENDOSCOPY

FOCUS ON BILIO-PANCREATIC DISEASE – from 10:00 to 11:00

10:00-10:20

Surgical Altered Anatomy: Endoscopic Techniques in Contrast

10:20-10:40

EUS-guided Therapy for Solid Pancreatic Lesions: What's New?

10:40-11:00

Techniques of Pancreatic Fluid Collection Drainage & Necrosectomy

11:00-11:30

BREAK

11:30-01:00

LIVE ENDOSCOPY

01:00-02:00

LUNCH BREAK

02:00-03:30

LIVE ENDOSCOPY

FOCUS ON GUIDELINES IN COMPARISON – from 03:30 to 04:30

03:30-03:50

**From Sequential Therapy to Tailored Treatment:
Comparing Guidelines for a Reasoned Management of IBD**

03:50-04:10

**Pancreatic Cystic lesion: the International Association
Pancreatology (IAP) updated Guidelines on the Management of IPMN**

04:10-04:30

Interventional EUS: State of Art and Guidelines Update

04:30-05:00

BREAK

05:00-06:30

Training on 3rd Space Endoscopy in the Mediterranean Area

END OF THE DAY

» March 21st

OPENING LECTURE

08:30-09:00 **Novel Drugs for Deep Sedation in Digestive Endoscopy**

09:30-10:30 **LIVE ENDOSCOPY**

FOCUS ON UPDATE IN BARIATRIC ENDOSCOPY – from 10:30 to 11:30

10:30-10:50 **Endoscopic Sleeve Gastroplasty: Systems and Long-term Outcomes**

10:50-11:10 **Transoral Outlet Reduction (TORE) and Novel Techniques in Metabolic Endoscopy**

11:10-11:30 **Endoscopic Management of Complications of Bariatric Surgery**

11:30-12:00 **BREAK**

12:00-01:30 **LIVE ENDOSCOPY**

01:30-02:30 **LUNCH BREAK**

02:30-04:00 **LIVE ENDOSCOPY**

FINAL LECTURE – from 04:00 to 04:20

04:00-04:20 **Endohepatology as a new paradigm: an emerging role of diagnostic and interventional EUS in 2025**

04:20-04:30 **Closing remarks**

END OF THE DAY
