

PROUDLY BY YOUR SIDE WITH ENDOSOLUTIONS FOR EUS

From Diagnosis to Treatment Experience clarity in motion with our Endoscopic Ultrasound Solutions!

The premium **ARIETTA™ 850 FF ENDO** ultrasound platform delivers diagnostic imaging without compromise and is equipped with multiple diagnostic applications to support advanced diagnosis.

Now, the revolutionary **Detective Flow Imaging (DFI)** technology is also compatible with our mainstream **EG-580UT ultrasound endoscope**, allowing even more physicians to experience clarity in motion first-hand.

Scan the QR code to see DFI in motion.
