## Welcome

**EUS Skyline's free educational webinars are back—your opportunity to enhance professional growth throughout the year.**

We invite you to our upcoming webinar, “**Mastering EUS-guided tissue acquisition in solid lesions,**” where leading experts will provide in-depth insights into the current status and evidence of EUS tissue acquisition methods. This comprehensive session will compare Fine Needle Aspiration (FNA) and Fine Needle Biopsy (FNB), discussing their applications, advantages, and how to optimize their use in clinical practice.

Our esteemed Faculty will present detailed case studies and share best practices for managing challenging cases, offering you the chance to engage with professionals at the forefront of EUS technology.

Registration is free, but time is limited.

Secure your spot now to participate in this valuable educational event!

## Faculty

**Our distinguished faculty brings together leading experts in endoscopic ultrasound from around the world.** Each member is dedicated to advancing the field and sharing their invaluable expertise to enhance your learning experience.

### **Dr. Belén Agudo Castillo**

*Specialist in Digestive Diseases, Department of Gastroenterology, Hospital Universitario Puerta de Hierro Majadahonda, Madrid, Spain*

### **Dr. Noor Bekkali**

*Consultant Gastroenterologist and Interventional Endoscopist, Department of Gastroenterology, University College London Hospitals NHS Foundation Trust, London, United Kingdom*

### **Dr. Mariano González-Haba Peña**

*Specialist in Digestive Diseases, Department of Gastroenterology and Hepatology, Hospital Universitario Puerta de Hierro Majadahonda, Madrid, Spain*

### **Dr. Alberto Larghi**

*Digestive Endoscopy Unit, Department of Gastroenterology and Digestive Endoscopy, Fondazione Policlinico Universitario A. Gemelli IRCCS, Rome, Italy*

## Event Agenda

**07.00 Welcome and Introduction**

A. Larghi

**07.05 Pancreatic lesions and EUS-guided tissue acquisition**

B. Castillo

**07.15 *Clinical Case***

**How to do tissue acquisition in solid lesions**

M. González-Haba

**07.25 Practical tips & tricks**

N. Bekkali

**07.35 *Round table with the experts***

**Questions & answers**

**07.55 Closing remarks**

A. Larghi

## General Information

### About this event

This webinar will discuss current status and evidence in EUS tissue acquisition methods, compare FNA vs FNB, present case examples and share best practice for challenging cases. The faculty will provide practical tips and tricks and give examples on how to optimize EUS tissue acquisition in solid lesions. You can address your questions and join the discussion with the experts.

## Registration

Secure your spot for this invaluable educational event by registering today! Participation is free, but spaces are limited. Don't miss the chance to learn from leading experts in endoscopic ultrasound.

Click the "**Free registration**" button to reserve your access and take the next step in advancing your professional development.
