Regione
Lombardia

Venue
Sala Napoleonica
Università degli Studi di Milano

Gastrointestinal (GI) disorders remain one of the most prevalent health challenges across the globe, affecting millions of individuals and significantly impacting their quality of life. Device-Assisted and Capsule Endoscopy have emerged as transformative technologies in the field of gastroenterology, offering unprecedented insights into the small intestine and other hard-to-reach areas of the GI tract.

This congress brings together leading experts, clinicians, researchers, and technologists to discuss the latest advancements, clinical applications, and future directions in this rapidly evolving field.

The primary aim of this congress is to foster a collaborative environment where participants can exchange knowledge and expertise on cutting-edge innovations in device-assisted and capsule endoscopy. Through expert-led discussions and groundbreaking research presentations, attendees will gain valuable insights into the following key areas:

- Technological advancements in capsule endoscopy, including artificial intelligence (AI) integration, enhanced imaging, and improved navigation techniques
- Clinical outcomes from the application of device-assisted endoscopy (DAE) in diagnosing and treating complex GI disorders, including Crohn's disease, gastrointestinal bleeding, and tumors

- 
- Challenges and solutions in the deployment of enteroscopy technologies in clinical practice, including overcoming anatomical barriers and enhancing patient comfort
 - Future trends in GI diagnostic tools, including innovations in sensor technology, wireless devices, and machine learning to enhance diagnostic accuracy.
 - Congress Highlights:
 - Keynote Speeches by globally renowned experts in gastroenterology and medical device innovation
 - Panel Discussions on the future of capsule and device-assisted enteroscopy and their role in precision medicine
 - Live Demonstrations of cutting-edge technology in capsule and device-assisted enteroscopy
 - Networking Opportunities to engage with peers, industry leaders, and potential collaborators
 - Exhibition Hall showcasing the latest enteroscopy devices, software, and related technologies

As the landscape of gastrointestinal diagnostics continues to evolve, it is crucial for clinicians and researchers to stay abreast of these advancements to provide the best care for their patients. This congress will serve as a valuable platform to explore the future of Device-Assisted and Capsule Enteroscopy and how these technologies are shaping the future of gastroenterology.

We invite you to join us for this exciting event, where innovation, education, and collaboration converge to push the boundaries of GI diagnosis and treatment.

SCIENTIFIC PROGRAM

08.00 **Registration**

08.45 **Welcome and introduction**

Luca Elli, Gian Eugenio Tontini, Maurizio Vecchi, Lucia Scaramella,
Emanuele Dabizzi

SESSION I

Moderators: Maurizio Vecchi, Cesare Hassan, Alessandro Mussetto

09.00 **Capsule endoscopy: indications overview and future applications**

Emanuele Rondonotti

09.20 **When to go deeper with device assisted enteroscopy**

Luca Elli

09.40 **Performance measures of device assisted enteroscopy**

Reena Sidhu

10.00 **Use of artificial intelligence in small bowel endoscopy**

Cristiano Spada

10.20 **The dark side of artificial intelligence in small bowel endoscopy**

Gian Eugenio Tontini

10.40 Coffee Break

SESSION II

Moderators: Marco Pennazio, Gian Eugenio Tontini

- 11.10 **Sedation in device assisted enteroscopy**
Massimiliano Pirrone
- 11.25 **Capsule endoscopy in suspected occult mid gut bleeding**
Stefania Piccirelli
- 11.40 **Use of capsule endoscopy in emergency**
Nicoletta Nandi
- 11.55 **Enteroscopy in celiac disease**
Fabiana Zingone
- 12.10 **Make small bowel endoscopy green**
Emanuele Lettieri
- 12.30 Lunch

SESSION III - CLINICAL CASES

Discussants:

Luca Elli, Marco Pennazio, Emanuele Rondonotti, Gian Eugenio Tontini

- 13.30 **Video cases of capsule endoscopy**
Elia Fracas, Matilde Topa, Giovanni Aldinio
- 14.15 **Video cases in DAE**
Nicoletta Nandi, Alessandro Mussetto, Lucia Scaramella
- 15.00 Mini Break

SESSION IV - SPECIAL ISSUES IN ENTEROSCOPY

Moderators: Emanuele Rondonotti, Emanuele Dabizzi

- 15.15 **Small bowel cleaning**
Lucia Scaramella
- 15.30 **Timing and operative options of device assisted enteroscopy in the small bowel bleeding**
Marco Pennazio
- 15.45 **Enteroscopy in familial polyposis: treatment and monitoring**
Edward Despott
- 16.05 **Enteroscopic and ecoendoscopic techniques to perform ERCP in altered anatomy**
Andrea Anderloni
Introduction of Cristiano Quintini
- 16.25 **Enteroscopy in the diagnosis and monitoring of inflammatory diseases of the small bowel**
Carlo Calabrese
- 16.45 **Safety of device assisted and capsule enteroscopy**
Paolo Cortegoso Valdivia
- 17.15 Discussion and End of the Meeting

COURSE DIRECTORS

Luca Elli

Gian Eugenio Tontini

Maurizio Vecchi

Lucia Scaramella

Emanuele Dabizzi

INVITED FACULTY

Giovanni Aldinio, Milano

Andrea Anderloni, Pavia

Carlo Calabrese, Bologna

Paolo Cortegoso Valdivia, Parma

Emanuele Dabizzi, Milano

Edward Despott, London, UK

Luca Elli, Milano

Elia Fracas, Milano

Cesare Hassan, Rozzano, MI

Emanuele Lettieri, Milano

Alessandro Mussetto, Ravenna

Nicoletta Nandi, Sheffield, UK

Marco Pennazio, Torino

Stefania Piccirelli, Brescia

Massimiliano Pirrone, Milano

Cristiano Quintini, Milano

Emanuele Rondonotti, Como

Lucia Scaramella, Milano

Reena Sidhu, Sheffield, UK

Cristiano Spada, Roma

Gian Eugenio Tontini, Milano

Matilde Topa, Milano, Berlin

Maurizio Vecchi, Milano

Fabiana Zingone, Padova

INFORMAZIONI GENERALI

SEDE

Aula Napoleonica
Università degli Studi di Milano, Palazzo Greppi
Via Sant'Antonio 12
Milano

ECM

L'evento sarà inserito nel piano formativo 2025 nell'ambito del Programma Nazionale E.C.M. (Educazione Continua in Medicina).

MODALITÀ PARTECIPAZIONE

L'iscrizione è gratuita.

Per iscriversi accedere al sito www.areaqualitagroup.com e seguire le istruzioni per la registrazione.

SEGRETERIA ORGANIZZATIVA
